Warranty Procedures

Warranty Registration –

All registrations must be done electronically through www.mydealeredge.com. Registrations must be submitted within 30 days of boat sale. Proof of purchase date or bill of sale may be required on non-current registrations. The customer and dealer may keep a copy for their records.

Warranty Claims

Our dealers are compensated for warranty repairs by submitting warranty on our website based submittal forms only. Instructions for submitting the form are on the form itself which can be found on our Dealer's Edge website. We require warranty claims be submitted within 30 days of the repair completion date. **If the warranty repair is for electronic components such as Stereos, Dash modules/ multiplex units, Minn Kota, Lowrance and Humminbird products, contact the manufacturer for warranty submittal and replacement parts.** If the total labor to repair any one failure is less than five hours, the repair should be made as required and a warranty claim submitted. If it is apparent the labor hours will exceed five hours, or there is no flat rate for the repair, the dealer is required to obtain an authorization prior to beginning the repair. The flat rate schedule for all repairs and brands is available on our Dealers Edge website. A prior authorization request must be submitted through the website or on an e-claim. In addition, if the repair will include painting, welding, or carpet, the claim must also be pre-approved. Hull serial number, description of the problem and the estimated cost to repair (parts and labor) must be provided.

We will not accept return parts sent back by common carrier freight collect.

Warranty claims that are incomplete, have incorrect information or are submitted for retail sold boats that have not been registered under warranty will be returned as an unprocessed claim, along with a request for additional or correct information.

Once the warranty claim is processed the amount approved is either posted on the dealer's account in the form of a credit or you may request a check from our Credit Department. A copy of a credit memo will be emailed to you.

Warranty claims are paid at the dealer's posted retail rate under the following conditions:

- The dealer has submitted a labor rate affidavit and a picture of their posted labor rate.
- The dealer accepts warranty repair requests for any Smokercraft Inc. brand boat regardless of whether that boat was sold at that dealership.
- The dealer agrees to compensation according to the flat rate guide (on items which have a flat rate) Items which do not have a published flat rate will be paid according to reasonable and expected charges for similar repairs.
- Dealers must agree to automatic emailed invoicing.
- Dealers must utilize web based warranty submittals (when available).

Dealers who do not agree to these stipulations will be paid at the default rate of \$60/hr.

Shortage/Damage Procedure -

Shortages and/or damages must be marked on the boat delivery packing list) or filed as a warranty claim in the online system. We request that you remove the shrink wrap and check for shortages or damages within 30 days of delivery of the product. Shrink wrap is for shipping purposes only. It is not UV inhibiting, nor does it breathe. If used for storage, mildew could cause seat stains, damages to exterior finishes, etc. and will not be covered under warranty. Any exterior or interior finish flaws, scratches, or missing items reported after the 30 day period are considered the dealer's responsibility and you will be charged for replacement parts. In some cases the shipping cover for the boat is reusable and can be put back on the boat after inspection.

Repair Boat Return Procedures

When returning a boat to the factory service center, prior arrangements must be made with the Customer Service Department. Our driver(s) will not load a boat for return to the factory without the proper paperwork.

Boats are repaired in the order in which they are received at the factory. Our goal is to have repairs completed in less than 90 days, but this may extend if the boat is returned in winter or spring months due to back log.

Please note the following rules for sending boats in for repair:

- All transportation costs to and from the authorized service center or factory; all haul-out, launching and rigging costs will be at the expense of the owner
- Please remove all personal property
- Place protective plastic wrap or tape on pontoon fence panels, painted finishes, and motors prior to shrink wrapping to prevent chafing damage from the shrink wrap.
- Do not ship boats back with mooring or playpen covers installed.

- Please remove all fuel from boats being returned for repair
- Please disconnect batteries prior to returning for repair
- Any boat returned to the factory between October 1st and May 1st must be winterized
- A written list detailing problems should be provided to the Customer Service/Warranty Department prior to the return of any repair boat and a copy sent with the boat.
- Digital pictures of the complete exterior and interior of the boat prior to shrink wrapping, must be e-mailed to the service manager at Smoker Craft Inc.

An electronic version of this form is available at www.mydealeredge.com in the documents section or by contacting your Customer Service Representative.

GAUGE WARRANTY PROCESS

We have recently changed our warranty to include direct access to the gauge manufacturers during service or warranty. When the item manufacturer has direct communication from the servicing dealer, they can provide the best technical assistance, and can rectify any problems found much faster resulting in better future products, and fewer warranty claims overall. This is to everyone's benefit.

The first thing to do is to determine which manufacturer's gauge you have. This is easily done. If you look at the gauge face and see "Faria" around the very edge, obviously it is a Faria gauge. If the gauge has nothing on the face, but has stenciled markings on the side of the gauge, it is Veethree gauge. Follow the appropriate instructions and contact the gauge manufacturer who made the gauge you are working on.

Veethree Gauge

Faria Gauge

Veethree process:

Should a Smoker Craft dealer technician feel he/she has a bad Veethree gauge, the following process is to be used for replacement.

- A. Contact Veethree Technical Service at 941-538-7775. Extension 350. The Veethree tech service representative is available to help trouble shoot the problem.
- B. If after consult, the problem still points towards a bad gauge, tech service will transfer you to the warranty department for shipment of a replacement gauge. Please be prepared to provide the warranty representative the following information:
 - a. Dealership name and address
 - b. Boat Model
 - c. Hull Identification number
 - d. Veethree part number and, manufacturing date code from the side of the gauge
- C. If the product is still under warranty, a replacement gauge will be shipped no charge to the dealership with a return postage label.
- D. Return alleged bad gauge to Veethree using the original carton and the pre-paid / pre-addressed return label.
- E. Once the gauge is received at Veethree, it will be tested to verify warranty claim.
- F. If claim is valid, a labor reimbursement check in the amount of \$50.00 will be mailed directly to the dealer. If the gauge is found to be functional or if product is damaged due to misuse or abuse, the labor claim will be denied.
- G. If alleged defective gauges are not returned to Veethree, the dealer may be put on hold of any replacement gauge shipments until the product in question is returned to Veethree.

Seaworthy, JBL, Infinity Stereo 6 Year Warranty, supported by Smokercraft Inc.

Dealer Support Process

Prospec will repair or replace the defective products with either new or refurbished product. This warranty will not extend to products deemed defective due to misuse, abuse, or personal disaster. Further, the warranty is null and void to products that have been tampered with. When in doubt, always consult your owner's manual for a list of troubleshooting guidelines and, if unable to correct the issue, please contact Prospec Electronics for further help. The warranty begins with the end consumer's date of purchase of the boat.

In the event of a failure of a 118 or 119 model stereo, it will be replaced with an infinity PRV250 or equivalent model stereo in order to keep the 6 year warranty program intact.

Dealer Support.

- A. If a unit is experiencing a problem, contact Prospec's support department for further troubleshooting (843-416-2417 or e-mail twells@prospecelectronics.com). Our team will go through a series of checklists in order to fix the issue. If unable to fix the issue, we will ship out the defective product via ground within 1 business day of receiving a phone call/e-mail/fax. Upon receipt of the product at the dealer, we will allow 30 days upon which to return the product back to Prospec.
- B. What paperwork is involved?
- Submit our *30 Day Hold* form via fax (843-849-9054) or e-mail (twells@prospecelectronics.com or prospecwarranty@prospecelectronics.com)
 - Once the form is received and has been completely filled out, Prospec will send out the product prepaid via UPS ground. Any expedited requests will be charged to the dealer.
 - Once the product is received by the dealer and the product is replaced, return the defective product to Prospec using the pre-paid shipping label to: **Prospec Electronics 3325 South Morgans Point Rd. Mount Pleasant, SC, USA 29466** Tel: 843-849-9037/Fax: 843-849-9054
 - Use the packaging that the replaced product was returned in. DO NOT just loosely throw defective product in a box and ship back. Doing so will result in damage to the product.
 - Be sure to mark the RA# (Return Authorization number) clearly on the outside of the box and include a copy of the original packing slip as well.
 - Prospec will evaluate the returned product and submit our findings to the manufacturer. **Returned units that have failed under warranty will have the dealer's labor rate paid for the flat rate time period.** *Failure to return the product within 30 days will result in a possible delay of the next 30 day hold request and associated shipping of product. If the product has not been returned within 30 days, a reminder phone call will be placed.*

Flat Rate Fee as part of the Extended Warranty Program.

No problem found units/abused units will be returned and will not receive credit or labor.
